Wecke den WOLF in Dir!

We're shaping the energy revolution. Our innovative heating and ventilation systems save thousands of tons of CO2 per year, increase living comfort and are leaders in user-friendliness. As the WOLF Digital divison, we contribute to the group's success through our customer orientation and our digital products. As an agile product organisation, it isn't only important for us to work according to SCRUM, but also to live an agile mindset. In close cooperation with the management and the departments, we're designing the new organisational structure and processes according to the SAFe framework.

Become part of the WOLF Digital team and shape the agile organisation and way of working at WOLF Digital with us!

Frontend Developer (m/f/d)

Your Role:
- You develop WOLF core applications for internal users and our customers using React.js and corporate Design System.
- You collaborate with designers and other developers to define and implement innovative solutions for product direction, visuals and user experience.
- You write clean, efficientand well-documented code using best practices and design patterns.
- You participate in code reviews and provide constructive feedback to improve code quality and maintainability.
- You identify and troubleshoot issues and bugs in a timely and effective manner.
- You otimize applications for maximum speed and scalability.
- You stay up-to-date with emerging trends and technologies in front end development and share knowledge within own team and across other teams.

Your Profile:
- 3+ years of experience in frontend development with a strong focus on React.js
- Excellent knowledge of HTML, CSS and JavaScript/Typescript
- Experience with Redux (RTK) and other state management libraries
- Knowledge of modern frontend build tools and workflows, such as Webpack, Babel and npm
- Familiarity with RESTful APIs and integration with backend services
- Strom problem-solving skills and ability to work in a fast-paced environment
- Good communication and collaboration skills
- Build and test automation knowledge is a plus

What WOLF offers you:
- You can expect open-minded, great colleagues for whom teamwork comes first.
- Mainburg or Regensburg? The main thing is WOLF! Choose your main place of work yourself.
- Your work-life balance is important to us. That's why we offer you flexible working hours, an overtime account and the option of mobile working.
- Healthy mind rocks! Your health is important to us: We support your physical and mental well-being with many different measures (bike leasing, gym discount, etc.).
- WOLF stands for development. You have access to further training opportunities for your professional and personal development.
